EDUCATION

Visvesvaraya Technical University

Belgaum

Bachelor of Engineering in Computer Science and Engineering CGPA: 7.81

Sept 2023 – Sept 2027

TECHNICAL SKILLS

- Coursework: Operating Systems, Database Management System, Computer Networks
- Languages: Python, SQL
- Frameworks and Libraries: Express.js, Node.js
- Tools: Git, Github, VS Code, MySQL, Postman API, MongoDB compass

PROJECTS

College Chatbot [Github](#) — *Python, Flask, NLP, Machine Learning Nov-2025*

- Developed an AI-powered chatbot to handle student queries related to admissions, courses, fees, and academic schedules.
- Applied NLP techniques to interpret user intent and generate accurate, context-aware responses to common questions.
- Built a Flask-based REST backend to serve chatbot responses and integrate with a structured FAQ knowledge base.
- Reduced repetitive manual support requests handled by college staff by automating resolution of common queries.

Financial Tracker [Github](#) — *Node.js, Express.js, JWT, Chart.js Apr-2026*

- Built a full-stack personal finance tracker enabling users to securely register, log in, and manage their expenses.
- Designed RESTful APIs for expense CRUD operations, monthly/category reporting, and per-category budget management.
- Implemented JWT-based authentication with bcrypt password hashing to secure user accounts and personal data.
- Added a budget alert system flagging categories nearing or exceeding spending limits, plus one-click CSV export.
- Visualized spending trends with Chart.js, rendering interactive pie charts (category breakdown) and bar charts (monthly trend).

ACHIEVEMENTS/LEADERSHIP
